

## DÉCOR DESIGNER MM

### Mullion Mount Outdoor Emergency Egress Lighting

Linear LED outdoor egress with both emergency lighting and night lighting function. The MM series is designed to mount directly on mullion frames used in typical glass panel entrance structures, with vertical mounting surface as small as 2". High efficiency LEDs and full 90° cut-off provide uniform emergency and night lighting on the extended egress pathway. All models are outdoor rated, UL wet location, ADA compliant, and exceed requirements of UL Standard 924 and NFPA 101. Designed and manufactured in the USA, complies with Buy American requirements.

#### Construction

- Extruded aluminum lamp housing 2" diameter, with gasketed mount bracket only 2 ½" height that includes a waterproof compression seal for universal wall or top mount
- Available models include:
  - EM and AC: Single fixtures powered from a Remote Power Supply
  - AC: 120/277 VAC input, with or without battery
- Wet location listed, UL924 and certified IP66
- Gasketed, molded end caps and Sealed acrylic lens
- Stainless steel hardware

#### Electrical

- Self-Test/Self-Diagnostic operation is optional for EM models with the Remote Power Supply
- Line latch circuit prevents unwanted emergency activation at installation
- 10W NiCad battery standard
- 20W SLA battery standard, optional NiCad battery available

- Dual function available for emergency or normally -on operation
- EM Models provided with AC indicator and push to test switch

#### Illumination

- Over 50,000 hour lamp life in normal use
- Lamps connected in parallel assure continued illumination, meeting NEC and NFPA requirements
- LED Color temperature standard 5000K; Optional outputs available 2900K, 3200K, 3800K
- 10W 1,000 Lumens
- 20W 2,000 Lumens

#### Certification

- Manufactured and tested to UL Standard 924, NFPA Life Safety Code 101, and certified to IP66
- Standard Operating Temperature
  - EM: -20° C to 40° C (-4° F to 104° F)
  - AC: -20° C to 40° C (-4° F to 104° F)

#### Warranty

- Five year limited warranty

## Specifications

**Fixtures:** Supply and install the Décor LED Series Mullion Mount or Series MM Wall Mount emergency lighting fixture. The fixture shall be listed for installation in wet locations in compliance with UL 924 and IP66 standards and shall be capable of operating either from Utility power at 120/277VAC, remote power supply Series RPS. Upon loss of AC building power, emergency models shall operate for a minimum of 90 minutes in compliance with UL Standard 924 and NFPA LSC 101.

**RPS:** Supply and install the remote power supply Series RPS. The RPS will be capable of operating the Décor LED® emergency fixture, and shall be available with either a SLA or NiCad battery with charger having universal 120/277 VAC input, to supply emergency lighting power for a minimum of 90 minutes in compliance with UL Standard 924 and NFPA LSC 101, or as a power supply without battery. The RPS shall also be capable of operating LED fixtures on or continuous mode, from 120/277VAC power input.

Max. wiring length from RPS to fixture

Wiring Size AWG	Length	Length(FT)
	MM10	MM20
#22	NA	20
#20	12	40
#18	25	60
#16	50	100
#14	75	160
#12	125	250
